Linear IC Applications Laboratory Assessment Rubric

Rubric for Demo experiments

Execution(4M)	Record (3M)	VIVA (3M)
Maximum marks are given if the execution is done in time	Maximum marks are given if the record submitted in time and with neat &clear solutions.	Maximum marks are given if answered all the questions.

Rubrics for Design experiments

Solution(4M)	Output(4M)	Record(4M)	VIVA (3M)
Maximum marks are given if solutions are unique in the class and submitted in time.	Maximum marks are given if the procedure of doing experiment, accurate Output, selection of components	Maximum marks are given if the record submitted in time and with neat &clear solutions.	As per the number of questions answered.

Rubrics for Structured Experiments

AIMS proposed (3M)	Solutions(6M)	Output(5M)	Record (3M)	VIVA (3M)
Maximum marks are given if the number aims more than 3 out of which one is unique and not proposed by any batch.	Maximum marks are assigned If more than one solution is proposed for the selected aim	Maximum marks are given if the procedure of doing experiment, accurate Output, selection of components	Maximum marks are given if the record submitted in time and with neat &clear solutions.	As per the number of questions answered
