| 1 | a)A family has two children. It is known that at-least <br> one of the children is a girl then what is the <br> probability that both the children are girls? (1M) <br> b)State and prove any three properties of conditional <br> probability.(2M) <br> 2a) Roll a red die and a green die. Find the probability that <br> total is 5.(1M) | CO3 |
| b)A book containing 100 pages is opened at random. Find <br> the probability that on the page. <br> i) A doublet is found. ii) a number whose sum of digits is <br> 10. (1M) | CO4 |  |
| 3 | In a class 2\% of Boys and 3\% of Girls are having blue <br> eyes, there are 30\% of girls in the class. If a student is <br> selected and having blue eyes, what is the probability that <br> student is girl. (1M) | CO3 |
| 4 | A letter is known as to have come from either <br> TATANAGAR or CALCUTTA. On the envelope, just two <br> consecutive letters "TA" are visible. Find the probability <br> that the letter has come from CALCUTTA. (2M) | CO3 |
| 5 | Professor Random has taught probability for many years. <br> She has found that 80\% of students who do the homework <br> pass the exam, while 10\% of students who don’t do the <br> homework pass the exam. If 60\% of the students do the <br> homework, what percent of students pass the exam? Of <br> students who pass the exam, what percent did the <br> homework? (2M) | CO3 |

Description of the Activity: Based on the Concept covered in the class, staff will give a set of problems to each group, after completion of the task, each group will be given a few minutes to discuss their solutions in the class.

- Each group consists of 3-5 members.
- Each group is formed such that it covers all levels of students.

## Rubric for Group problem solving:

Team Work - 5 Marks
Answering Ability (Individual) - 5 Marks
Total : 10 Marks

|  | Criteria | Scale of Assessment |  |  |
| :---: | :---: | :---: | :---: | :---: |
| No |  | Satisfactory | Good | Excellent |
| 1 | Team work | Distracts or <br> discourages other <br> group members from <br> solving problems.  | Cooperateswith <br> other <br> members in a <br> reasonable manner | Actively engages and cooperates with other group members in an effective manner. |
| 2 | Answering ability | Student is <br> uncomfortable with <br> information. Seems <br> novice and can <br> answer basic <br> questions only.  | Student has competent knowledge and is at easer with information. Can answer questions. | Student has presented full knowledge of both problem and solution. Answers to questions are strengthened by rationalization and explanation. |
